(54) INFORMATION CONVERTER

(57)Abstract:

PROBLEM TO BE SOLVED: To realize an information converter capable of converting information into an HTML document including also the tree structure of holder hierarchies.

SOLUTION: The hierarchical structure of an electronic cabinet 1 for storing document data is read out, a table of document data in respective hierarchies is extracted and document data read out from the cabinet 1 are converted into an HTML format while holding the extracted hierarchical structure, so that the document data can be converted into an HTML document including also the tree structure of holder hierarchies.

LEGAL STATUS

[Date of request for examination] 04.06.1998

[Date of sending the examiner's decision of rejection] 14.08.2001

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
